

# JURA CREST TRAIL

## CHARACTER

The Jura Crest Trail has a long-standing tradition as a long-distance footpath. Despite this, access to accommodation and catering does present certain difficulties as there are very few places to stay over the first peaks of the Jura. Luckily there are lots of post buses and train connections which lead down into the southern foothills where there are places to stay. The Jura Crest Trail offers pleasant walking opportunities – minimal height variations and generally good pathways. Note the somewhat longer walking times for each stage.

## PART A: AARGAUER JURA

### ZÜRICH / DIELSDORF - LÄGEREN - BADEN

**Hiking time: 4:10**  
The length – along the Eastern stretch of the Jura – looks harmless from afar but the crags between Regensberg and Baden are very wild and require walkers to tread care.

### BADEN - BRUGG

**Hiking time: 4:25**  
This stage does not present any great obstacles and reaches its highest point in

Baldegg (593m). The view of the Alps ranges from Säntis to Savoyen and across the Jura to the Black Forest. Between Turgi and Brugg, the route crosses the «moated castle» of Switzerland.

### BRUGG - HERZBERG

**Hiking time: 4:30**  
After Brugg, the Jura Crest Trail starts to climb. Above the Linnerberg (722m) and Saalhöhe (621m), you will come across the magnificent stage destination of Herzberg.

### HERZBERG - WISEN

**Hiking time: 4:05.**  
A beautiful stretch on the crest which runs through desolate landscapes – with breathtaking views. Take a picnic with you – as the Nature Friend's House is only open to guests at weekends.

### WISEN - BALSTHAL

**Hiking time: 7:30**  
The route reaches new heights at Belchenflue (1098m) and Roggenflue (995m) – and the two mountain landscapes are the perfect place to take a rest. The Klus – a deep gorge in the first chain of Jura peaks – forces you to descend

## PART B: BERNER & NEUENBURGER JURA

### BALSTHAL - WEISSENSTEIN

**Hiking time: 6:15.**  
This route section also begins in the lowlands – but the route quickly climbs upwards and reaches the ridge on the Hällchöpfli (1230m). Various different areas offer food and drink and walkers will then pass the Rötiflue along the final section on their way to the Weissenstein.

### WEISSENSTEIN - FRINVILLIER / BIEL

**Hiking time: 6:30**  
The Weissenstein offers one of the most striking viewpoints of the Jura. The sun terrace of the Solothurner Jura offers unique views over the middle lands to the crown of the Alps from Säntis to Mont-Blanc. Via Grenchenberg and the little village of Plagne you then reach Frinvillier. Short train ride to Biel from here.

### FRINVILLIER - CHASSERAL / NODS

**Hiking time: 6:05**  
A long but even ascent over several terrains leads from Frinvillier up to the highest peaks in the Bernese Jura chain. Up on the

Grat there are just a few tufts of grass covering the cliffs.

### NODS / CHASSERAL - TÊTE-DE-RAN

**Hiking time: 6:30**  
Magnificent views of the Jura and Alps with the wild and romantic Combe Biosse gorge and gentle landscapes of the Jura characterising this high stretch from Chasseral to the Vue des Alpes. You will then arrive at Tête-de-Ran via the Vue-des-Alpes.

### TÊTE-DE-RAN - NOIRAIGUE / COUVET

**Hiking time: 6:10**  
The route runs via Mont Racine (1438m) and La Tourne to Val de Travers, where the «green fairy» now legally sells absinthe. From here, it's just a short train transfer to Couvet.

**SwissTrailsTip:** Visit the asphalt mines of Couvet.

### NOIRAIGUE - CREUX-DU-VAN - LA COMBAZ / COUVET

**Hiking time: 5:45**  
The powerful rock face of the Creux du Van is one of the highlights of the Jura as a whole. A visit to a Métairie (farm with restaurant) gives a good insight into the tough

life which takes place up here. From La Combaz, transfer by car to Couvet.

### PART C: WAADTLÄNDER JURA

#### COUVEY / LA COMBAZ - CHASSERON - STE-CROIX

Hiking time: 4:50

The climb up from Couvet to La Combaz runs through the bizarre gorge of Poëta Raisse. You will then reach Ste-Croix via the views of the «Balcon du Jura vaudois» and peaks of the Chasseron (1606m).

**SwissTrailsTip:** Juke Box museum.

#### STE-CROIX - VALLORBE

Hiking time: 6:40

The Aiguilles de Baulmes – a bizarre and large band of cliffs – form the first high-light. The Neuenburgersee lake and Lac Léman can be found in this chain of the Alps. The descent offers magnificent views of the Vallée du Joux and French Jura.

#### VALLORBE - L'ABBAYE

Hiking time: 4:30

The official route runs from Vallorbe via the Dent du Vaulion (1482m) towards Col du Mollendruz.

**SwissTrailsTip:** You can also choose to climb up to Le Pont / Lac de Joux, visiting the Grottes de l'Orbe caves on the way. The result is a magnificent natural spectacle of stalactites and gigantic cave formations.

#### L'ABBAYE - COL DU MARCHAIRUZ

Hiking time: 5:20.

The 1679 m high Mont Tendre is the highest point of the Swiss Jura. The ascent takes several stages from Lac de Joux up to the mountain. Shortly before reaching the peak, you will come across the Chalet du Mont Tendre. Here, the giant terrace offers unbelievable panoramic views over Lake Geneva and the Alps.

#### COL DU MARCHAIRUZ - ST-CERGUE

Hiking time: 4:55.

Park-like landscapes and magnificent views of Lac Léman and the Savoy Alps characterise this walk. The descent to St-Cergue is

characterised by a mix of greenery and dark fir tree forests.

#### ST-CERGUE - BOREX / NYON

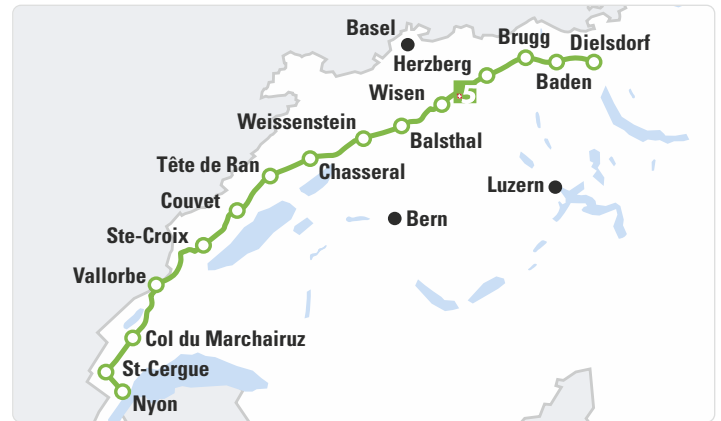

Hiking time: 6:30

The vegetation around the peak of La Dôle is almost alpine in nature. There are buttercups and wild gentians almost as far as the eye can see. Lac Léman stretches out in all its glory. The city of Geneva can be seen

and in the South, Mont Blanc borders the horizon. The tour and Jura Crest Trail comes to an end in the small village of Borex.
