

LAKE LUCERNE CIRCLE TRAIL

Seelisberg above Lake Lucerne

OVERVIEW

This hike around Lake Lucerne provides grandiose views of the valley, the surrounding alps and the lake. You will pass through alpine meadows, steep cliffs and placid mountain lakes, as well as various passes, and can take joy in the magnificent flora and fauna. Mountain inns invite you to re-energize yourself.

ROUTE

LUCERNE - SEELISBERG 5:30

From Lucerne by train and cable car to Nie-

derrickenbach. In the village there are shops selling alpine herb trees gathered by the women from the monastery. It continues further along the beautiful sycamore woods on the well-known «game observation trail». **SwissTrailsTip:** Valley ride using the cable car to Emmeten, by post bus to Seelisberg.

SEELISBERG - FLÜELEN 5:05

The «Swiss Path» winds around the deep Urnersee, at times along steps hewn into the cliff side, then again on smooth trails, past the numerous inns and swimming locations, and with frequent, splendid views of the lake and the surrounding hills.

FLÜELEN - BRUNNEN 5:55

Between Flüelen and Sisikon the hike passes over a path on the shores, like at the Riviera, past Telskapelle and Telsplatte. The climb from Sisikon onwards is challenging, but there is the relaxing spa complex in Morschach to enjoy.

BRUNNEN / URMIBERG - RIGI KALTBAD 4:10

By cable car to Urmiberg. The Rigi, Queen of the Mountains is a hiker's dream come true. The stage from Urmiberg via Scheidegg to Kaltbad is also a hike that can only be described using superlatives. Unmatched views, sometimes cover four lakes

at a time, are guaranteed. The panoramic view of the alps stretches from Säntis to the Bernese Alps.

RIGI KALTBAD - RIGI KULM - KÜSSNACHT 4:30

The Rigi is 1800 m and no wonder then that, on a fine day, thousands of people eager to enjoy the sun make an excursion to this mountain. The climb from Kaltbad up to Kulm then looks like an exodus. An unforgettable experience! Descent to Seebodenalp and Küssnacht.

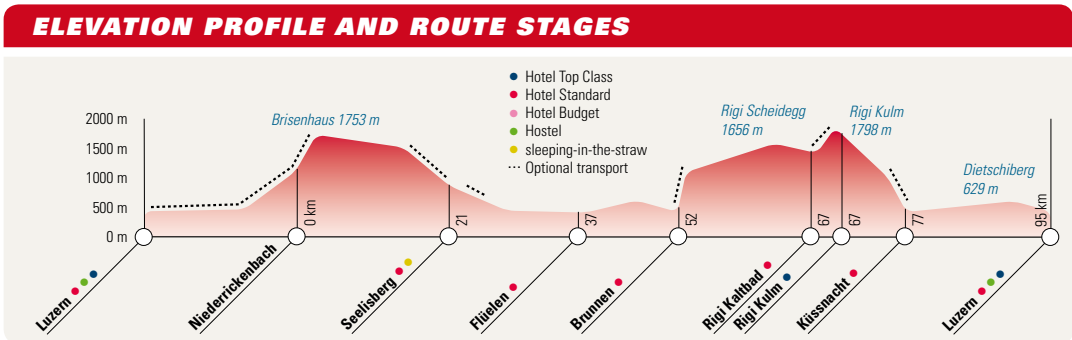

SwissTrailsTip: Seebodenalp - Küssnacht by cable car.

KÜSSNACHT - LUCERNE 5:30

The hike around Lake Lucerne winds up with a splendid finishing stretch across the Dietschberg. The view of the lake is overwhelming, and it is enjoyed by the golfers playing here above Lucerne. After a short descent the path leads to the heart of Lucerne, along the lake side promenade.
